PROFESSIONAL SUMMARY

Strategy research and analytics professional with 2+ years of Big 4 audit experience at EY (US Wealth & Asset Management) and Deloitte, currently completing a Master of Business Analytics at UTS. Combines financial domain depth with structured problem-solving and client-ready communication, with a particular interest in industry research, competitive landscape analysis, and translating commercial questions into evidence-based recommendations. Drawn to open-ended advisory work where the answer isn't obvious and the value is in the framing.

CORE CAPABILITIES

Strategy & Research: Industry Analysis | Competitive Benchmarking | Market Sizing | Hypothesis-Driven Problem Solving |
Risk Research Financial Domain: Wealth & Asset Management | Financial Statement Analysis | Audit Methodology | Internal Controls | IFRS / AASB.

Bachelor of Commerce (Honours), Finance | Grade: 9.0 / 10 (Distinction)

PROFESSIONAL EXPERIENCE

Ernst & Young (EY) — Hyderabad, India Nov 2022 – Dec 2023
Audit Assistant — Wealth & Asset Management - US Engagement

- Supported one of EY's largest US-based asset management engagements, contributing to financial statement preparation and tie-out across multiple funds for a top-tier institutional client.
- Performed dividend, interest income and realized /unrealized gain-loss testing across portfolios; identified and resolved reconciliation variances ahead of issuance deadlines
- Coordinated daily across time zones with the Boston engagement team, owning resolution of review notes and documenting findings in line with US filing requirements.
- Built foundational fluency in the Wealth & Asset Management operating model, fund accounting, and the regulatory expectations facing US asset managers.

Deloitte Touche Tohmatsu — Hyderabad, India Dec 2020 – Dec 2021
Audit Analyst II — Risk Advisory & Enterprise Risk Services - Netherlands Engagement

- Delivered financial statement audits for Netherlands-based clients within a team of 7, executing planning, substantive and concluding-phase procedures end-to-end.
- Performed risk assessments and tests of controls over cash, operating expenses and revenue cycles; documented findings in line with the Deloitte Audit Approach (DAA) and IFRS.
- Drafted the audit report, management letter and letter of representation; presented findings to senior associates and engagement managers.
- Developed working knowledge of audit methodology, materiality assessment, sampling techniques, and control-design evaluation across multiple client engagement.
